LHO came into The Dresden Rm (1760 N. Vermont Ave, Los Angeles) on August 25th, 1963.

Prior thereto he had written a friend who got a letter from husband saying that she should quit her job + move to New York, that it would be easier to live there. She wanted, that on Nov 21 or Nov 22 "a thing would be different." (?), "If everything went according to plans, he would join her on Thanksgiving." Her friend's name was Georgiana. Doesn't recall last name (friend was connected with Fontainebleau). Phone number: 464-7903 (Georgiana's phone to June 27, 1963). She gave to FBI - they probably destroyed phone records by now.

Letter came from N.O. Ms Georgiana's husband worked on ship, (shipping out of N.O.)

(the only one who had good. Pay phone number)

3 people came in, 1 in suit + 2 in shirt-sleeves. Hostess says "they're all 21. Take their cocktail order." They spoke in a different language, apparently Russian + some Spanish English. Two other ladies heard. They talked about "Viola" (gun. (✓ Lois Blanchett 948 13th 321 (H)? Mrs Kenneth Ellsworth, one of the ladies). Other two men were young + Cuban looking, under 25 - looked younger than LHO. One was round faced + barrel chested. LHO gave a Dancer's Card with the name of Lee Oswald on it by Lee Osborn [no initials]. She made 2 further appointments + these in front (D/C copy). Bus boy [illegible] came over + picked up the check + looked at it.

Out 2:00 o'clock p.m. She turns the checks over + says. She had won. Bus boy, Pat, took the check which had been rung on the record. (Pat said) She wasn't sure why he did it, but knew that he knew the two guys so didn't go. Pat goes to Los Angeles State College.

After appointment, she asked Pat what was the reaction of people after the assassination. He said

that he was off with a call.

☐ ☐ Hernandez worked at Hollon's Restaurant, N. Vine (1600 block).

Mrs. C. spoke to FBI last nov interest.
On 26 April, 1966 man came to her house.

Pat (sy 'ced') graduated & went to work in Dallas. (around June '65 or '66). After assassination, he said he might have to leave - just stayed in L/A for a year or two. (Had not work the night of the assassination. Dr. Crenshaw's husband After Shaw story broke, Pat went back to Dem. His friend - Ali (to Ollie) - works for Bank of America now, she believes. Pat & Ali probably had tax deduction at the Dresden Rm.

Heavy set man had on brown suede, black hair. Short, as was other. Other man was thin.

Lino had on zipped jacket (brown). Other two did not have on coat! She what let them wait in the main dining room

(at 5:00 pm)
In 1966 Clay Shaw came in with man & woman. Mrs. C served them. They were her age bracket. Woman had hair straight back, chignon. Men were heavy set.
David Ferrie was in there with six young man. Pat was standing close by. Mrs C. had to step up.

Carl Ferrara has been across all the years. Is from Cleveland (had restaurant there) - married Sarah (wedding father). (Ferrara was not there when Shaw came in - came in afterwards, sat for a few minutes with them & bought them drinks. Pat he often

Conversation (3)

does this for new people. Shaw talked about San Francisco, talked about a friend of his in Japan.

Ferrara did not come in when Ferrie was there. The 5 or six lads with him were young, dark - all looked Cuban or Persian, were brothers. Forbes was drinking beer & straight shot. He had his shirt open, was old & thick like an onion. "Others drinking beer. They did not seem to fit in the place.

Georganna's husband = tall heavy, around 180 lbs, taller than her, dark, Latin (she is 5'3")

Mr. Ferrara is "Italian", "is very good man", "would not be likely to be connected with these people."

Appearance was that LHO came in because friend of Pat's, that Pat's taking check gave him a bonus on the house.

(LHO ordered ground steak, well. He seemed like he was trying to save money, was ordering cheapest things in the menu. They drank coffee afterwards, stayed a long time. Pat didn't come near the table, but took checks afterwards - first time he ever went there for checks. Because of this the checks never go into slot in box).

LHO talked about trip to Mexico City (LHO pronounced it "Mexico City") (LHO had asked for the check) cost. No one came to the table. Both of others were dark, but thin one might have had green eyes. They also talked Russia. Ferrie Thornley picture is a possibility for one of the persons two men with LHO.

(→ Mrs. Coopersmith only asks to know results - later on of his inquiry here. He wanted me why Ted post boy he would there).
